Total page views per month: 14 700 000

Digital active accounts: 87 800

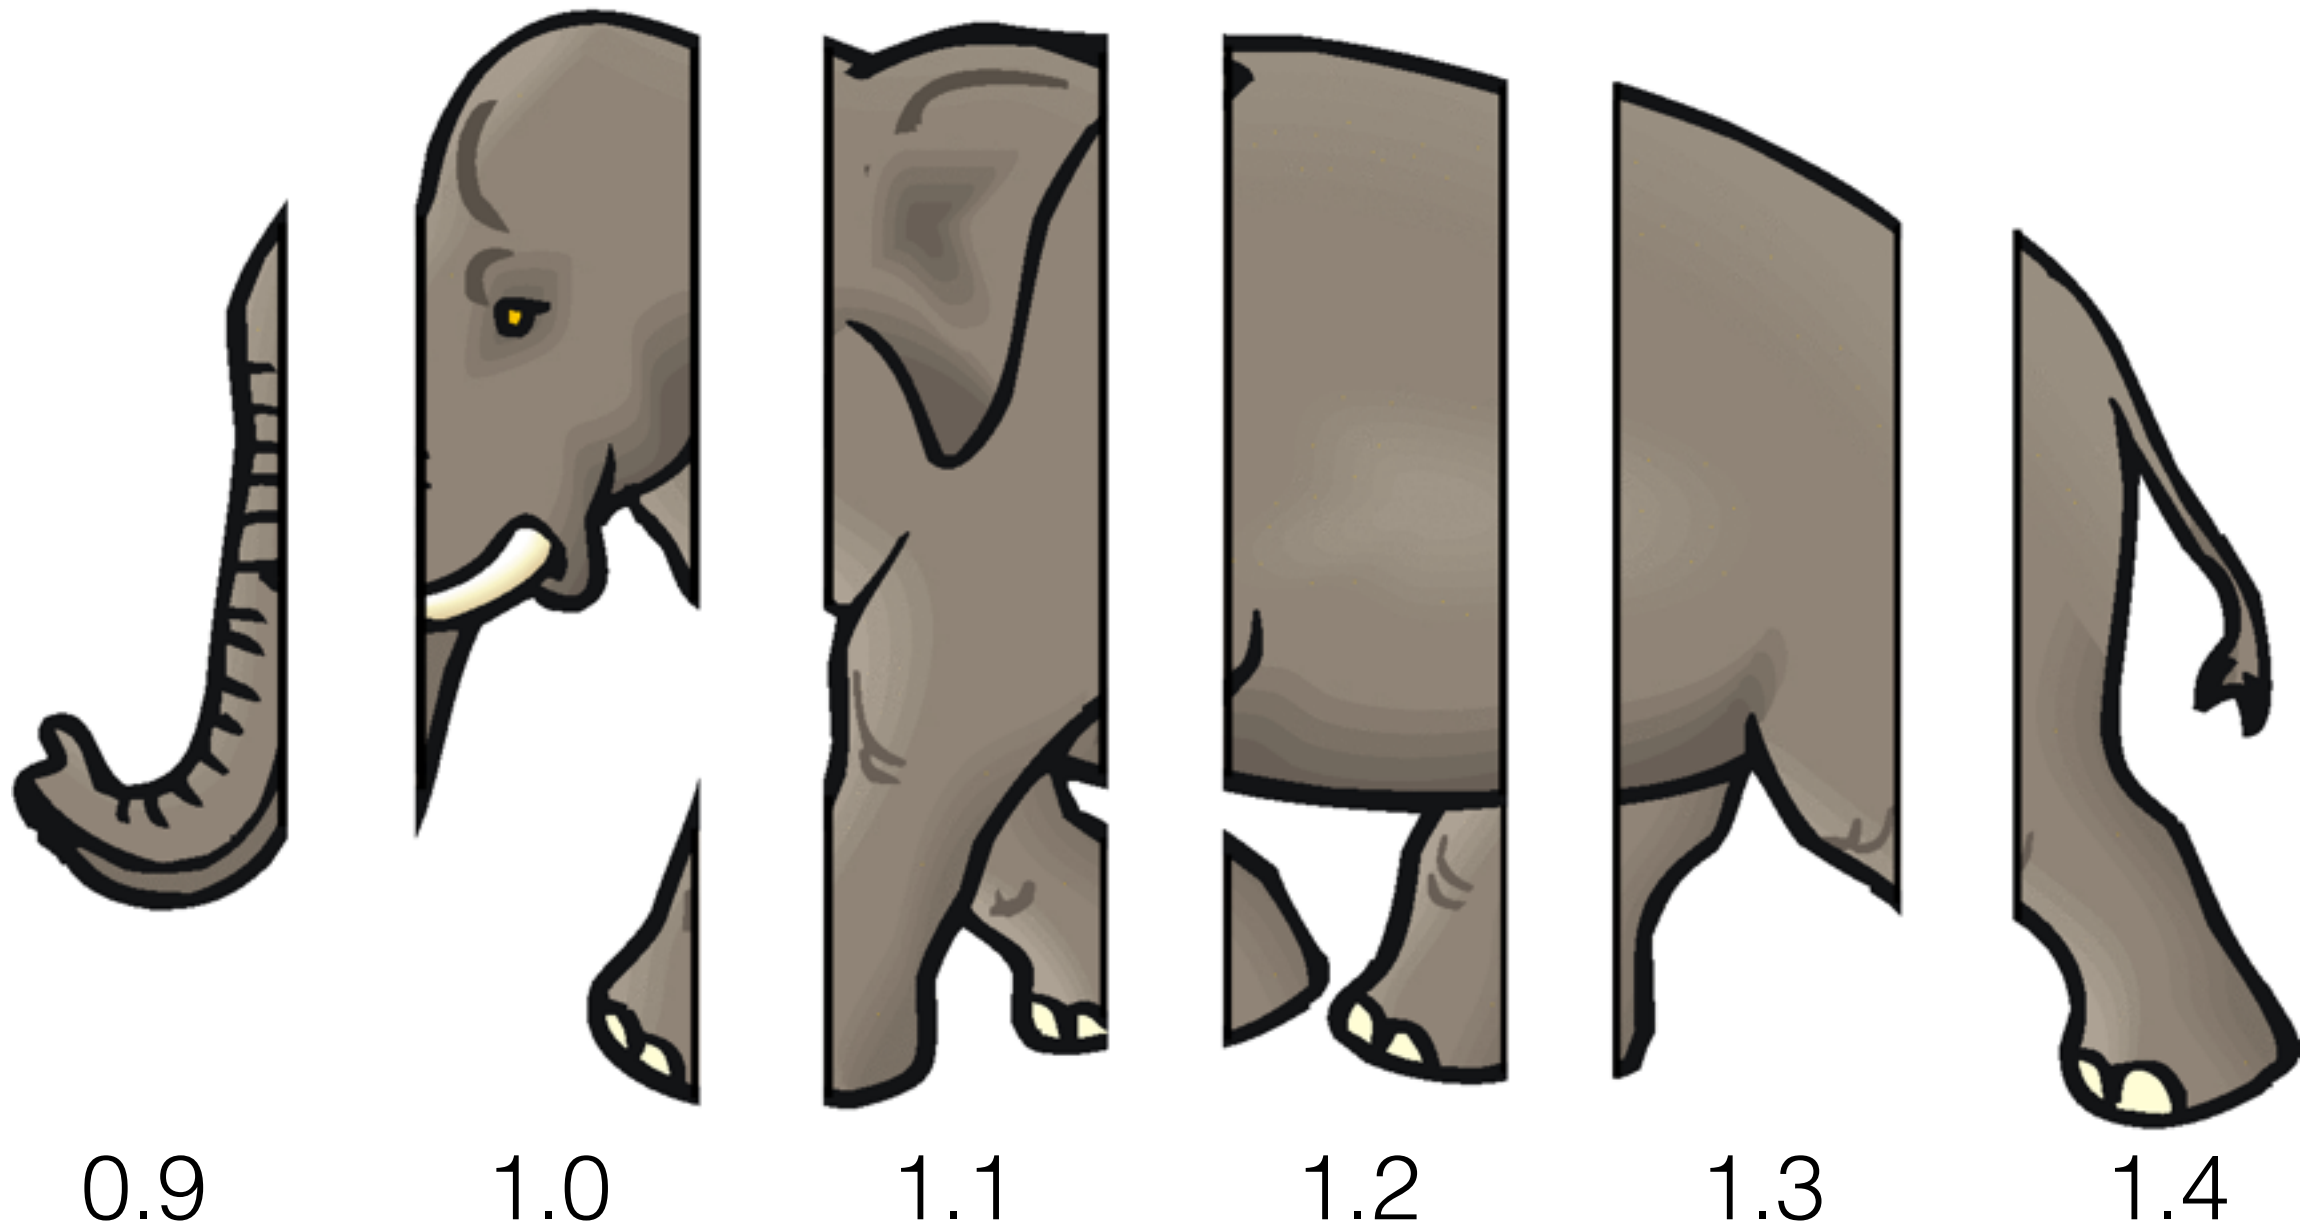

Employees: 777 (400 in the newsrooms)

Turnover: € 137 million

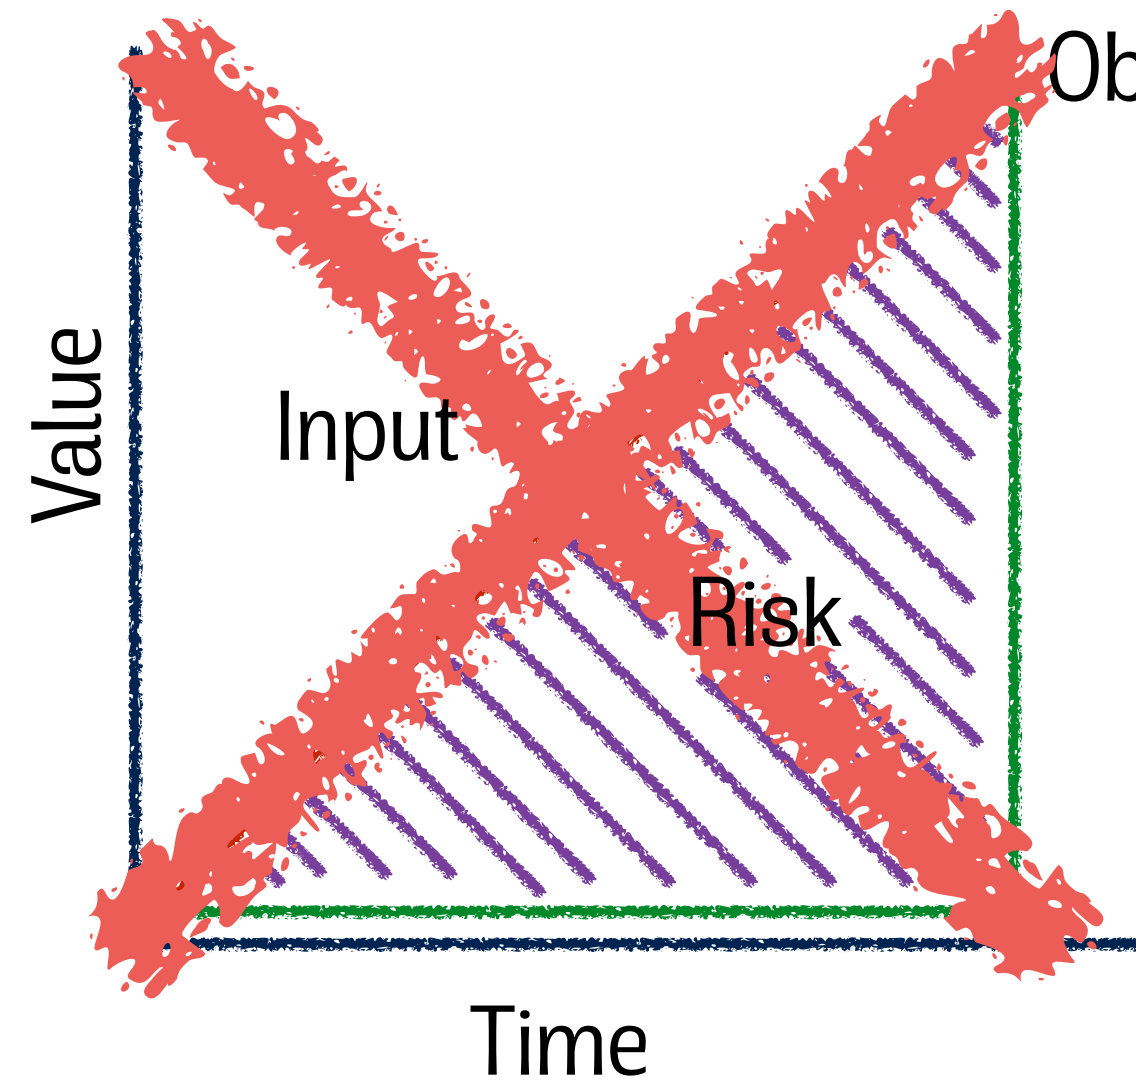

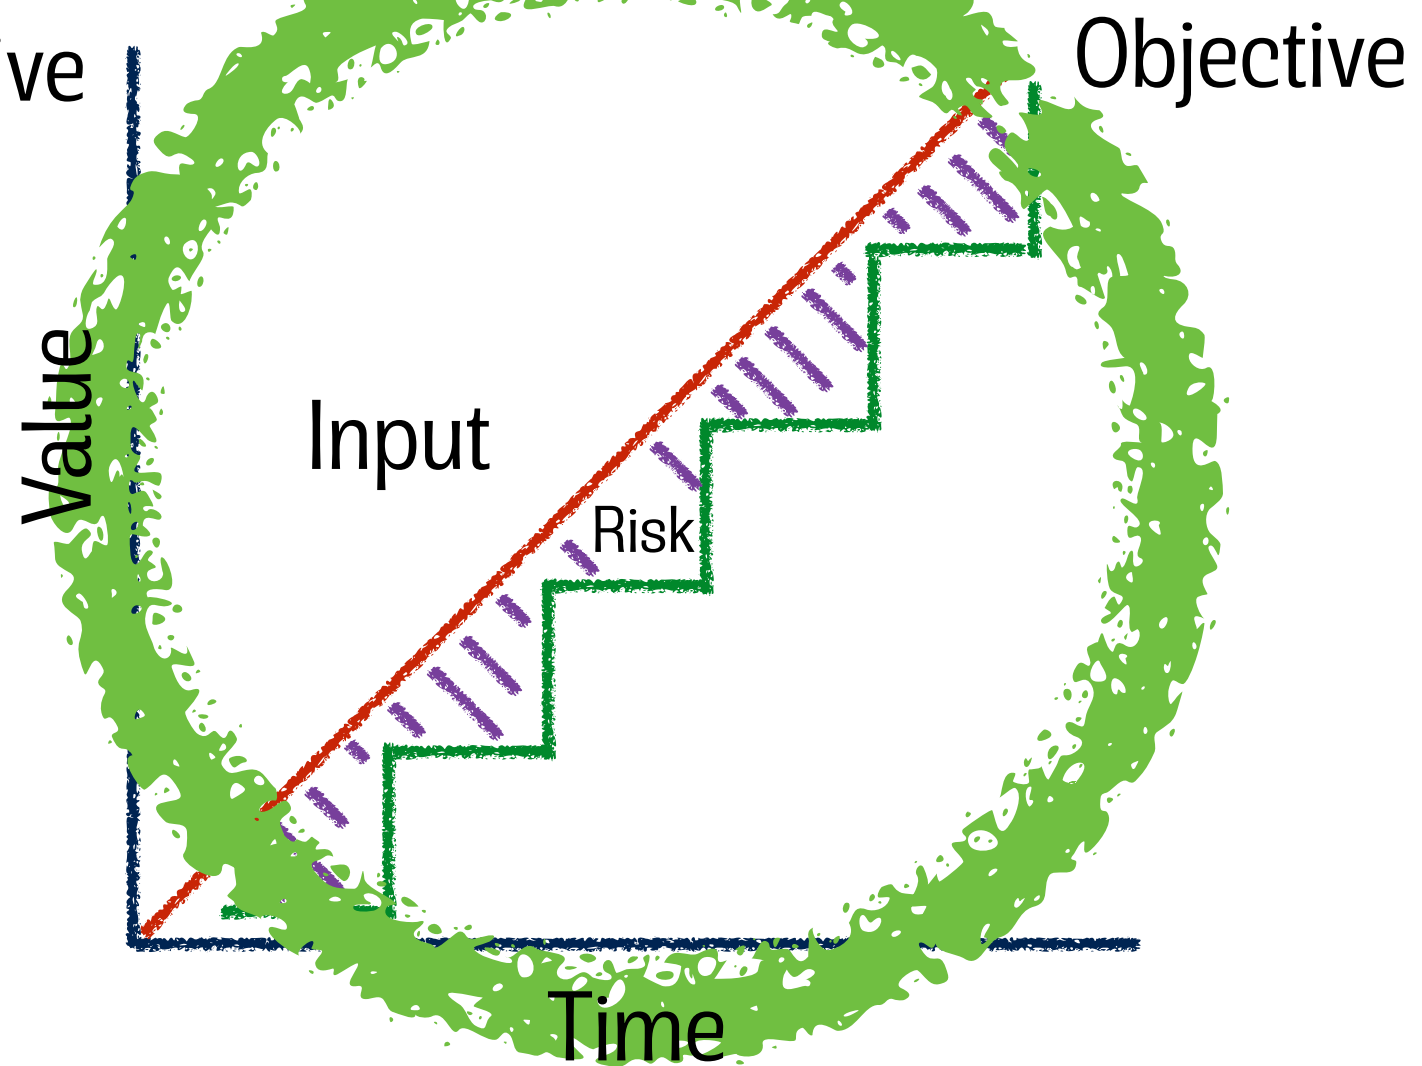

Rule 1: Slice the elephant

Rule 2: Minimum Viable Product

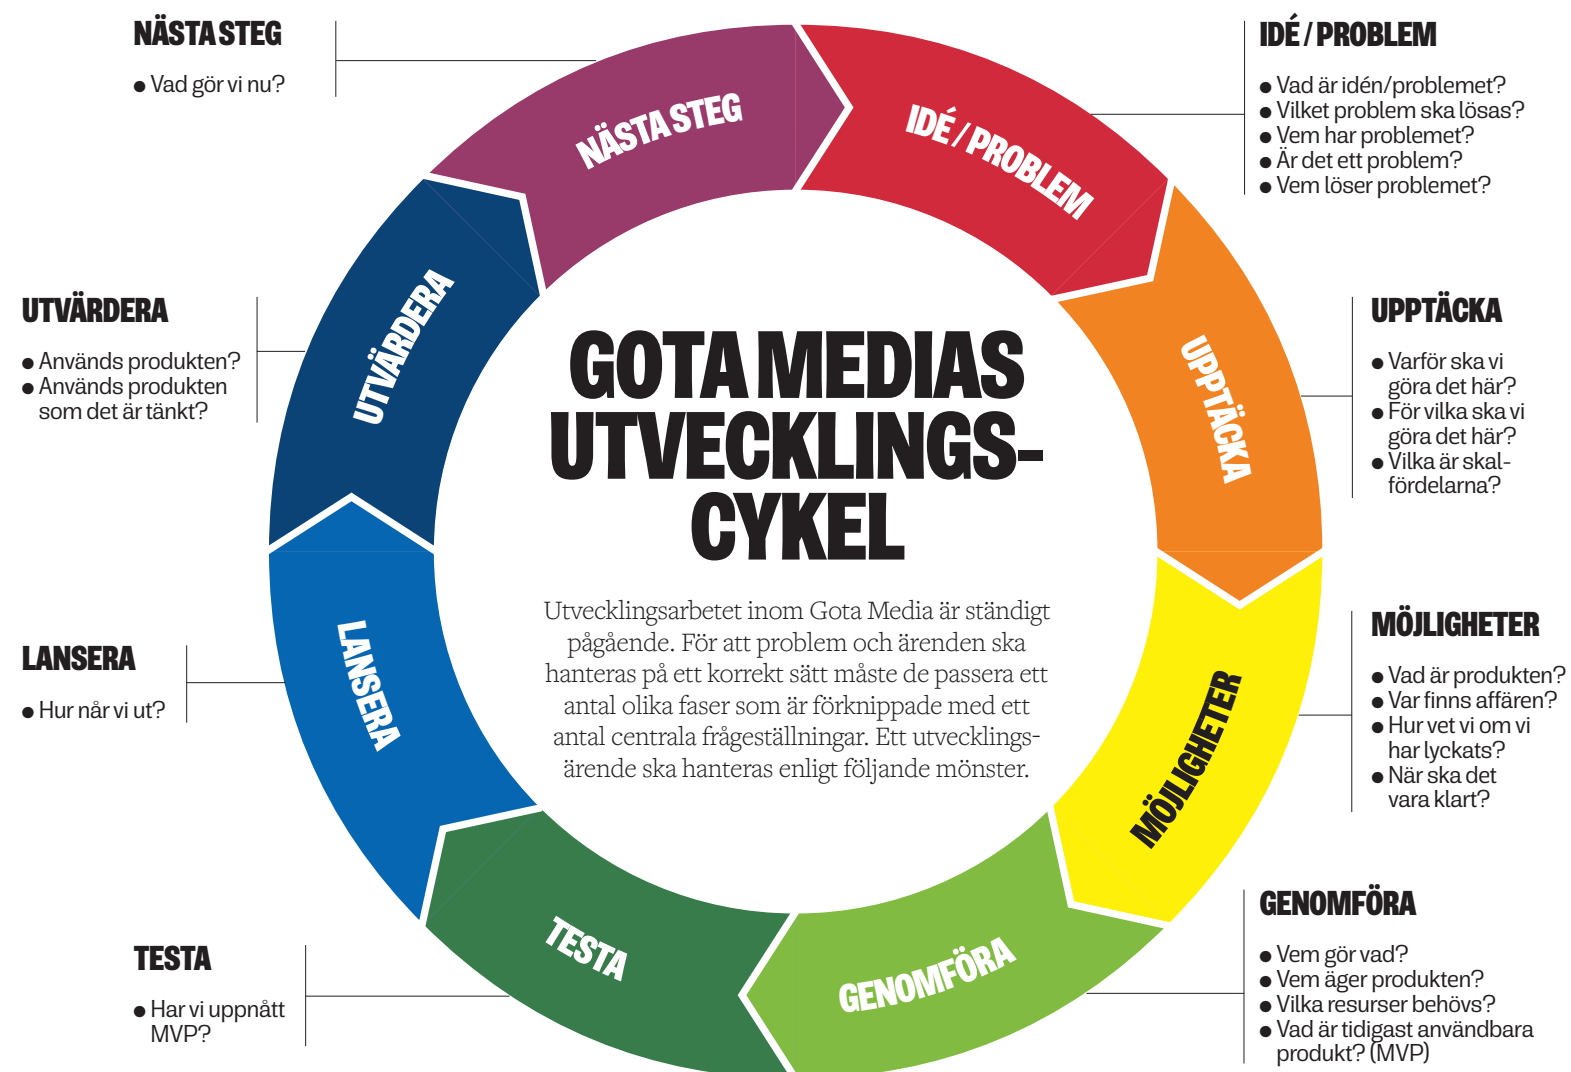

Minimum Viable Product

Earliest Testable Product

Earliest Usable Product

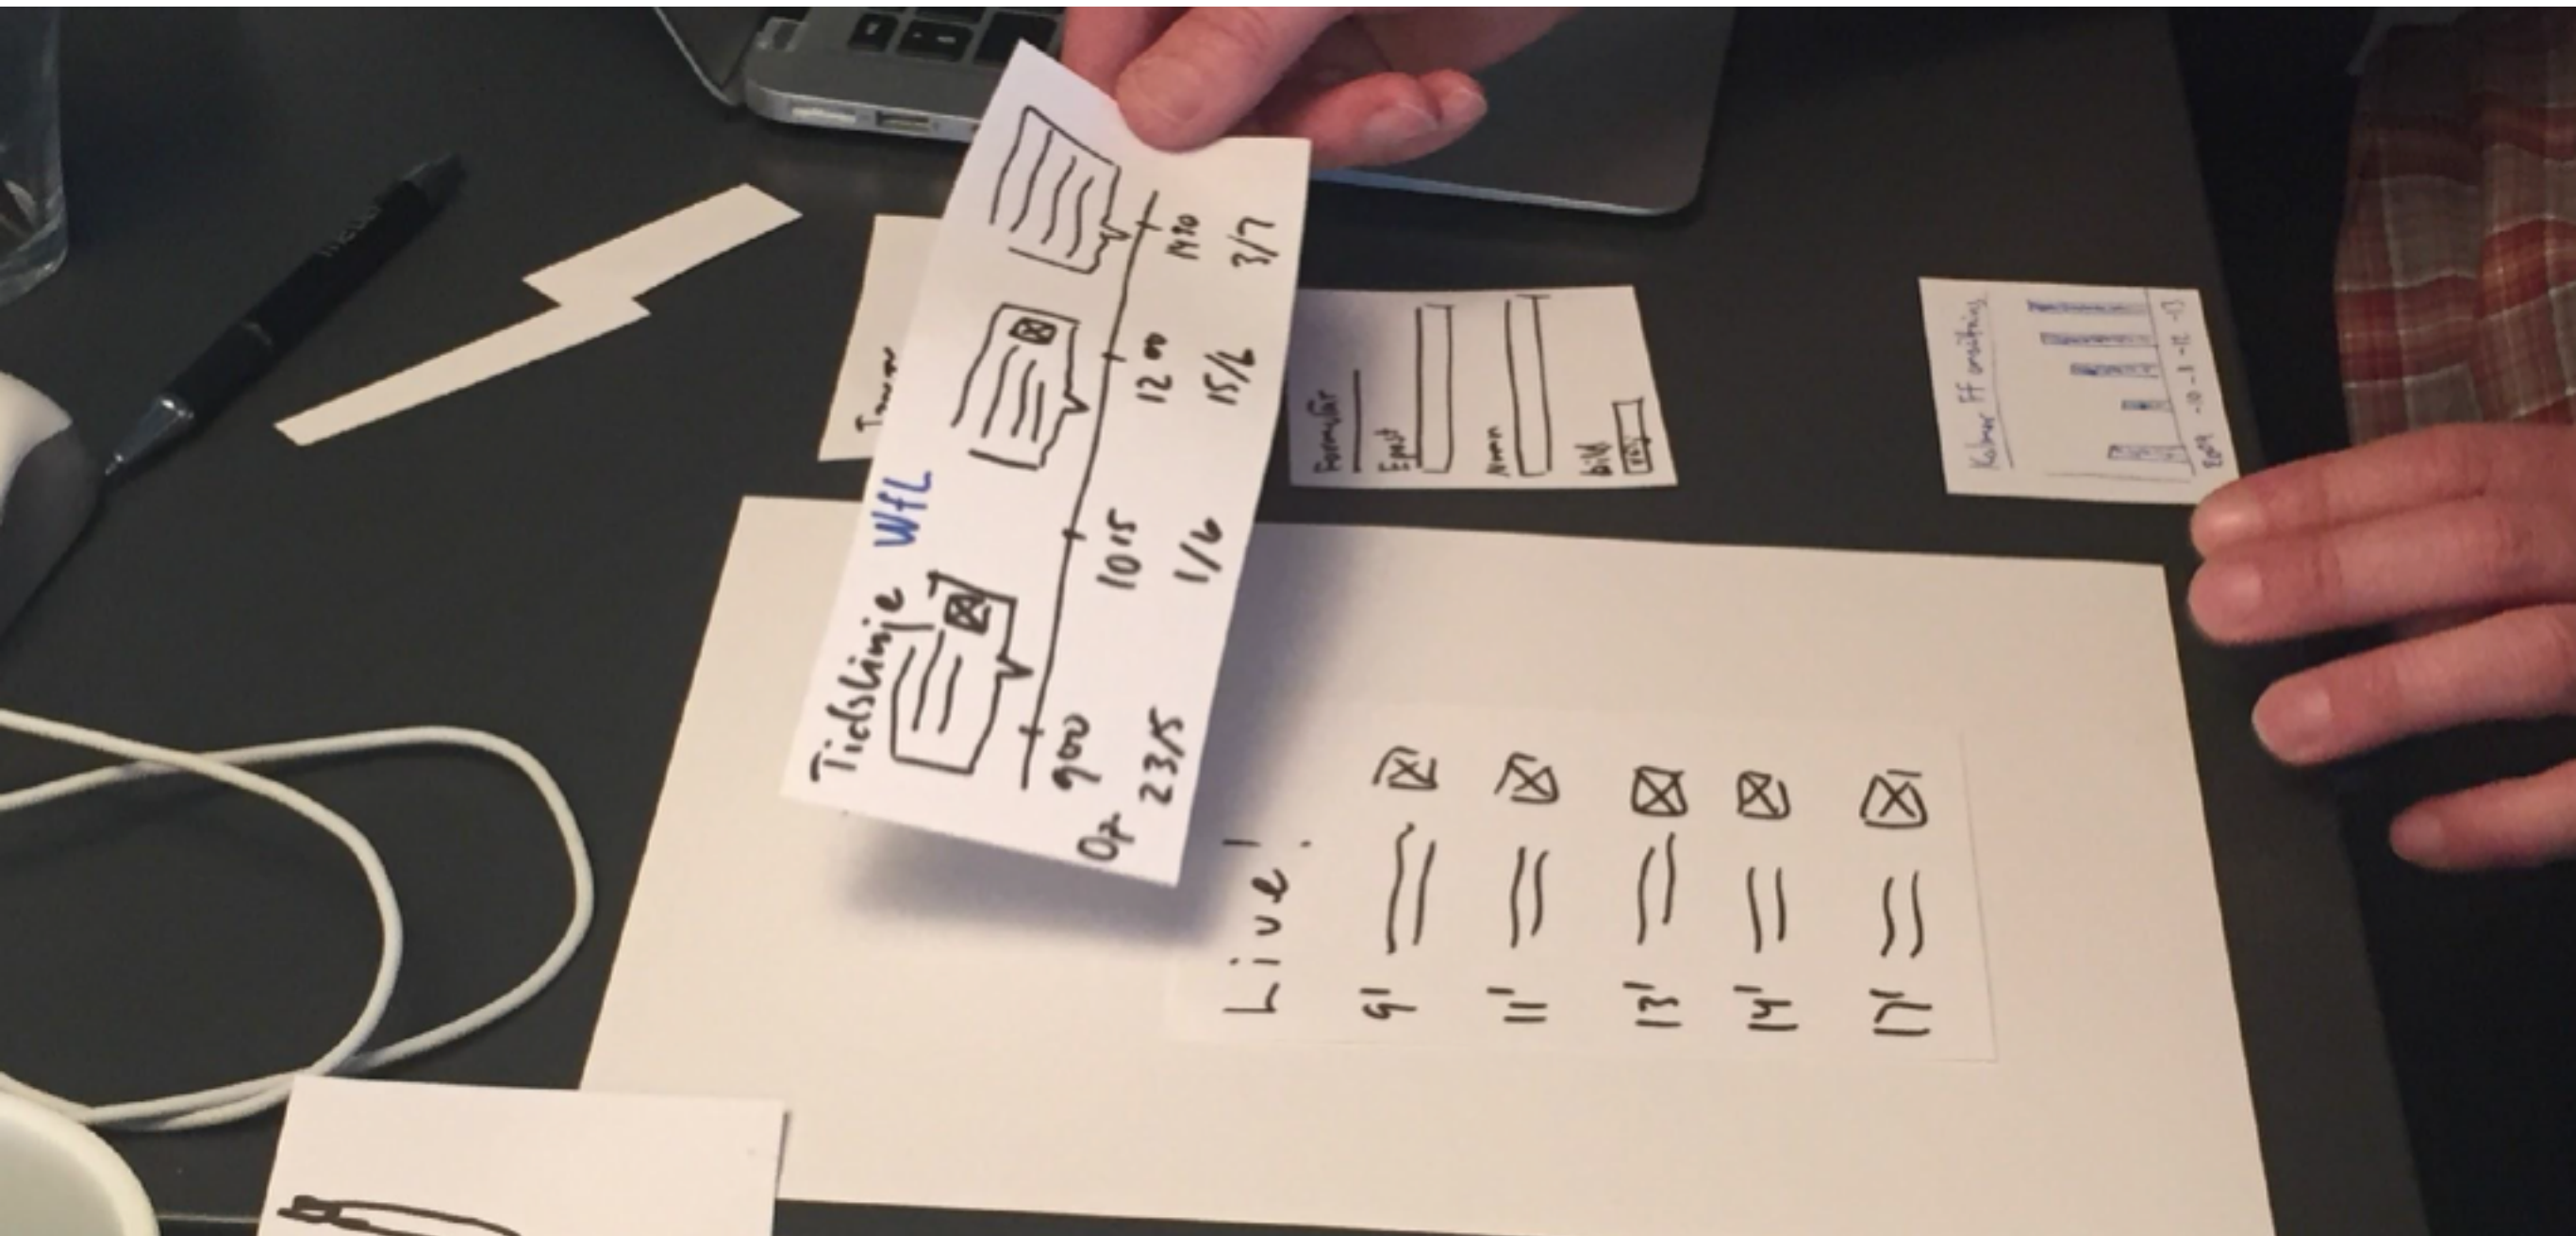

Earliest Lovable Product

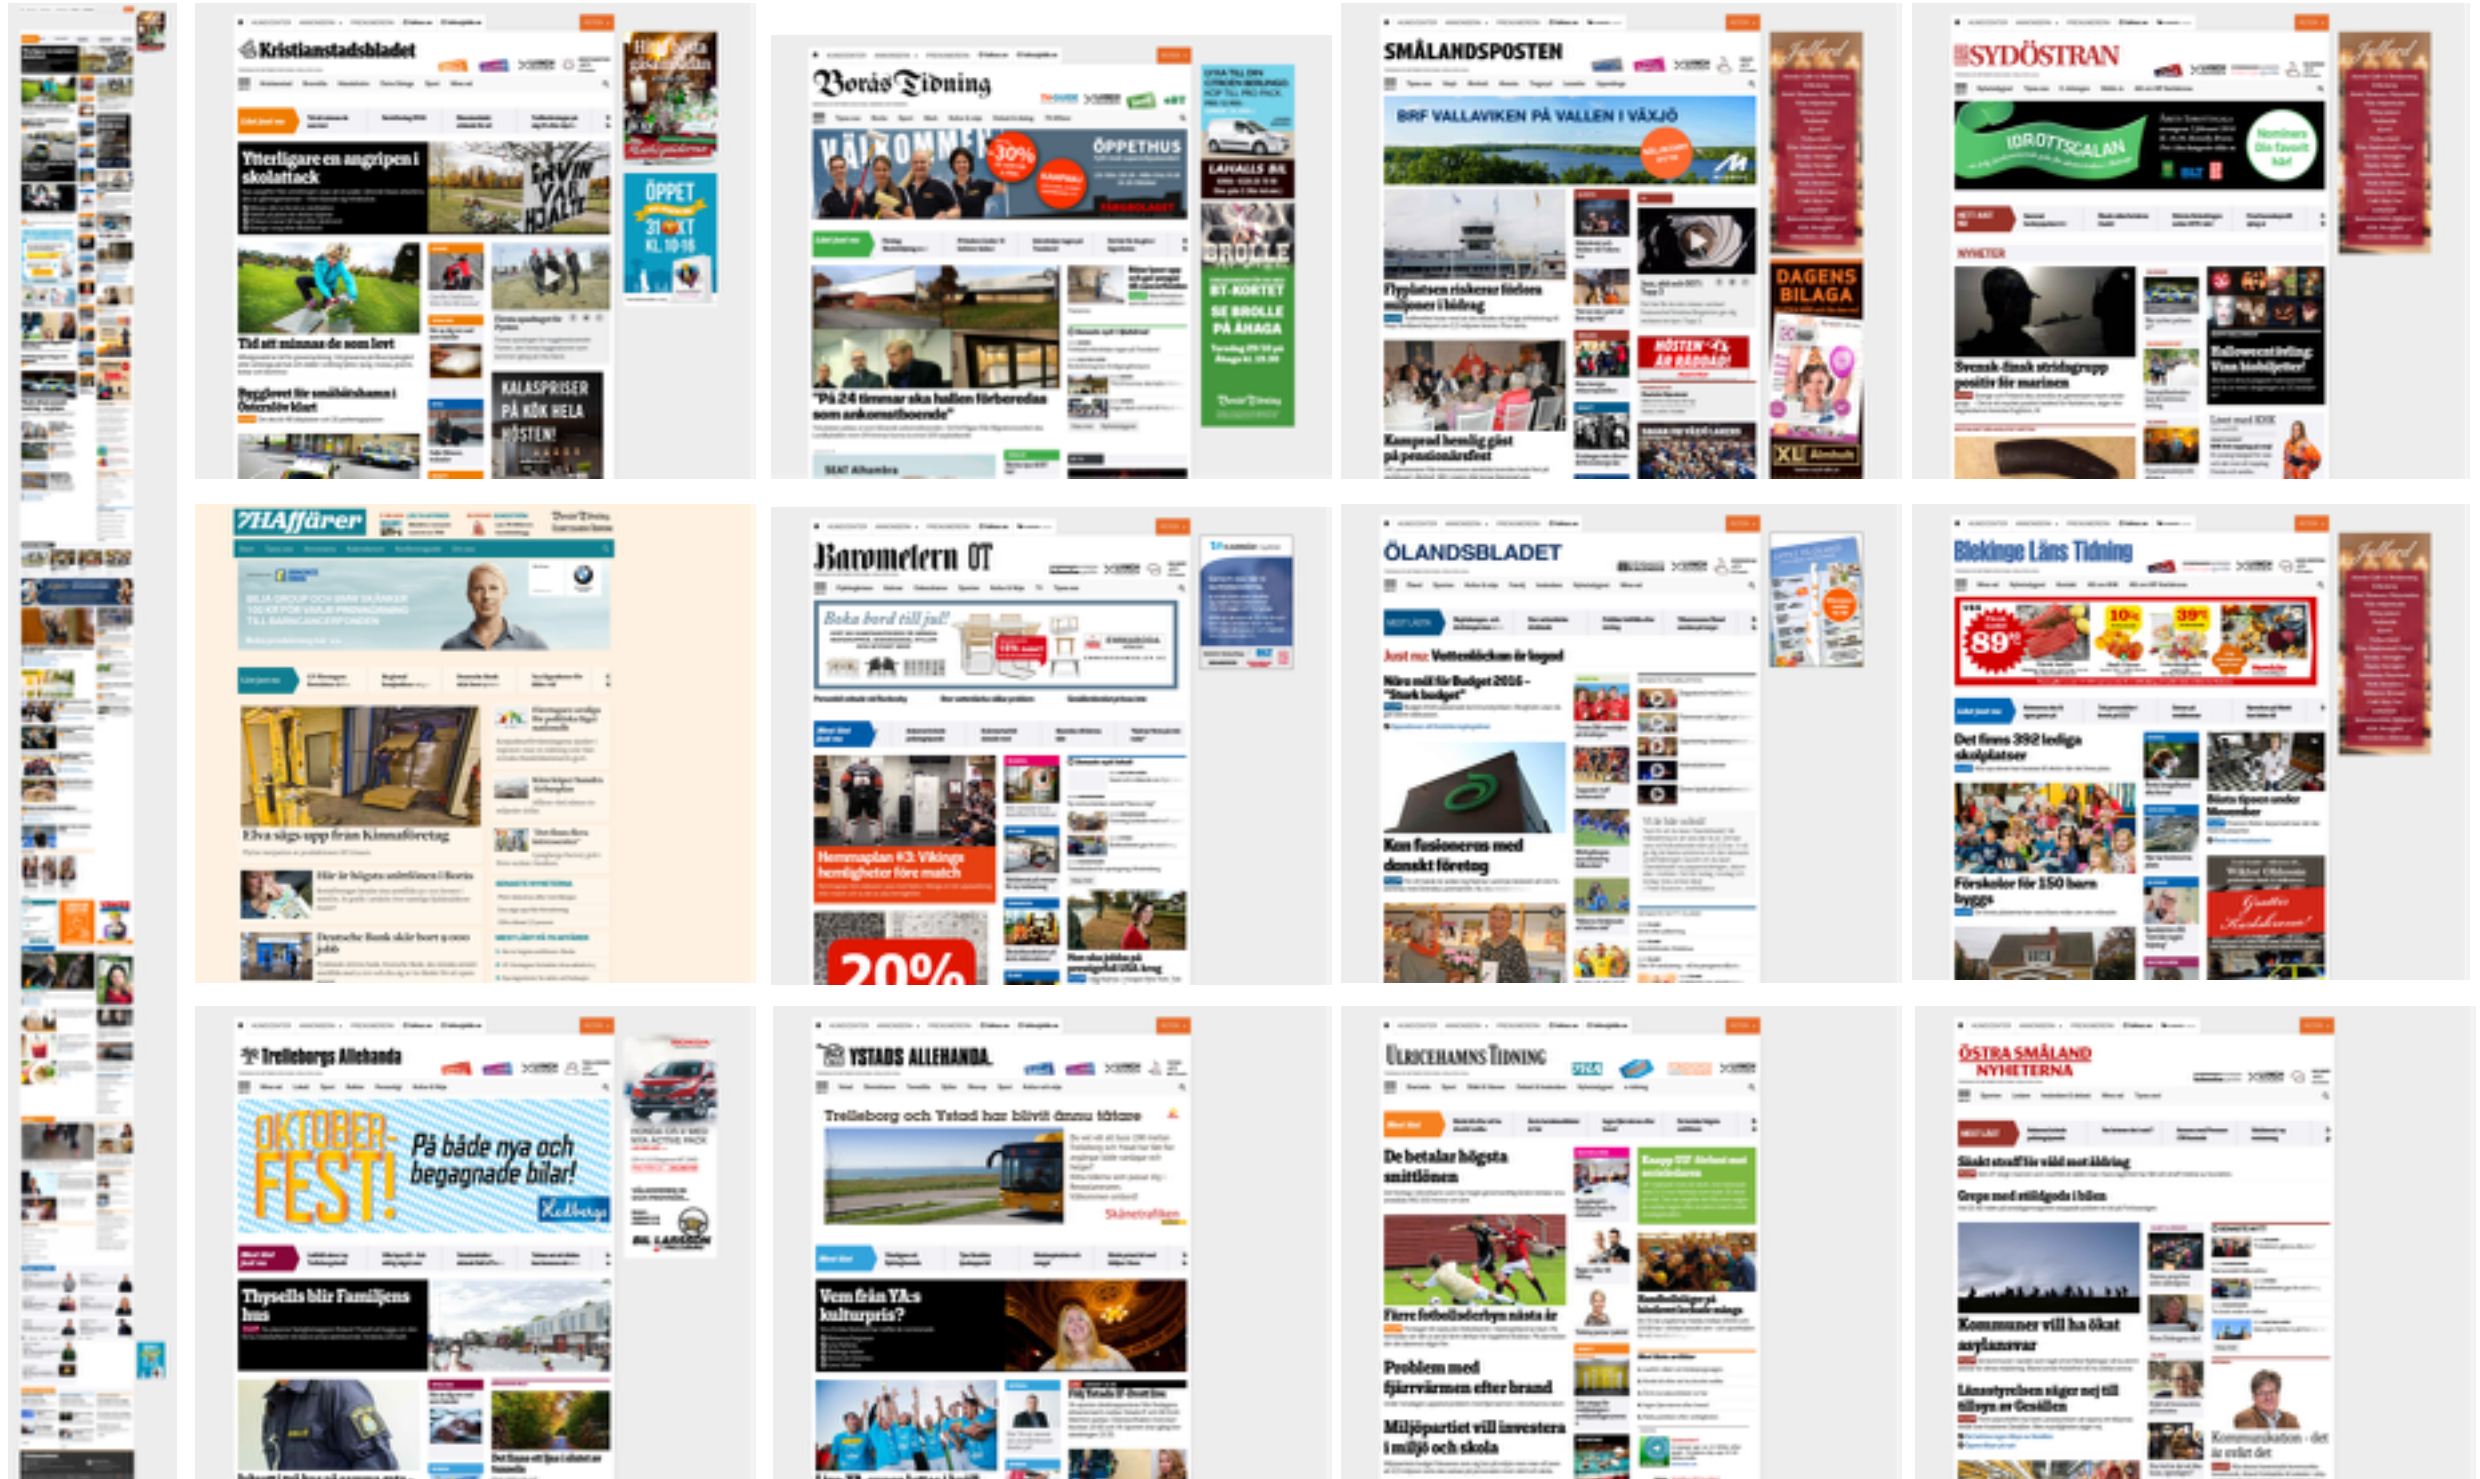

Rule 3: Facilitate the right resources

Rule 4: Involve the users

Rule 5: Scalability

Rule 6: Use the whole team

Rule 7: Stop starting - Start finishing

The screenshot shows a JIRA Kanban board for the project 'Produktionsutveckling Digital (PuD)'. The board is organized into columns representing different stages of the workflow: Todo, Analys, Utveckling, Peer review, Dokumentation, Redo, and Release. Each column has a count of issues and a 'Max' value. The 'Utveckling' column is currently selected and highlighted in red.

QUICK FILTERS: Auth, GmDigital, Rush, Link(GmApi), Only My Issues, Recently Updated

Columns and Issues:

- 41 Todo**
 - GMDIG-225: Översyn av gradvariation i puffrubrik
